

Philanthropy

At Ginsberg's Foods, philanthropy is a core component of our culture. We have a rich history of giving back to the communities in which we live and work, particularly in Columbia County where the company was founded in 1909. In addition to our corporate activities, we encourage our employees to contribute to their communities in any way they can.

Ginsberg's Foods has developed a Strategic Framework to guide our philanthropic activities, and we believe that it will assist us in building productive relationships.

Our philanthropic focus is on culinary education, farming and agriculture, economic development, health and welfare, and civic and cultural arts initiatives. The core goals of the programs and projects that we fund are to strengthen the community and improve life for its citizens and future generations.
