

ANDERSON
Just The Right Chemistry.™

It started when the INTEGRA TIP® Laundry Program, (Total Impact Program), was created in December of 1997 and received the EPA's first Design for the Environment Institutional Laundry Program partnership. The Design for the Environment program paved the way for new green endorsements through the creation of the CleanGredients and Blue Green organizations. Anderson Chemical Company continues to work with these organizations to provide new & improved green chemistry.

DISSOLVE for institutional and industrial descaling, deliming and de-rusting applications. It is also phosphate free and contains no volatile organic substances (Item# 14322)
