How much do I need ?

DELI STYLE CONVERSION*

PACK SIZE	CONVERTED TO POUNDS	SERVINGS
1 pint	1 pound	2-3
1 quart	2 pounds	4-6
1/2 gal	4 pounds	10-12
1 gallon	8 pounds	20-25

APPETIZERS TO SERVE*

Follow this standard guideline when determining how many types of appetizers to serve

NO. OF GUESTS	TYPES OF APPETIZERS
8 to 10	serve 3
12 to 16	serve 4 or 5
18 to 30	serve 6 (minimum of 1 hot item)
32 to 46	serve 7 (minimum of 1 hot item)

- 4 appetizer pieces per person before dinner or 5-7 pieces per person for a cocktail party is a safe guideline to follow.
- Stock up on plenty of ice. You'll need it for chilling bottles of wine or champagne as well as serving in drinks on the rocks. A good rule of thumb is plan to have 1-pound of ice per guest for drinks.
- **Two Hour Rule.** Don't leave perishable food un-refrigerated for more than two hours. Put out small portions of food at a time and replenishing as your party proceeds to prevent spoilage. Put perishable foods back in the cooler or refrigerator as soon as you finish eating.
- When grilling, use a meat thermometer to be sure meats and poultry reach a safe temperature. Cook chicken breasts to 170°F; other poultry to 180°F; beef, lamb, and veal steaks and roasts to 145°F for medium-rare and 160°F for well done.

Keep HOT foods HOT and COLD foods COLD!

* Charts are based on a gathering lasting no longer than two hours. Please adjust your buying with these factors in mind.
